The banks were doing only a quiet business yesterday, with no change in the situation. Money sufficient at 8@10 per cent. per annum for all acceptable borrowers, with a fair but not large inquiry for loans. Exchange quotes as follows: New York buying ½ discount, selling ½ premium; New England buying at ½ discount. sight ¼ discount, selling at par. The New York World reports: "The rates of exchange on New York, reported by telegraph, show only one change: the rate in St. Louis has recovered to par, from \$1 per \$1000 discount on Saturday, and as much as \$1 50 discount on Wednesday. Chicago still reports 80c discount, so that a small advance in Chicago, with a corresponding decline in St. Louis, is FINANCIAL. with a corresponding decline in St. Louis, is needed to equalize quotations." The Chicago Times says: 'Without an exception, bankers report their patronage as remarkably light, and the condition of affairs less satisfactory and the condition of affairs less satisfactory than commonly enjoyed at this season." Our Canadian neighbors find matters no better than we do. The Montreal Gazette says: "In a few days the first payments of winter goods will be due; importers realizing how difficult it will be for retailers to meet their obligations falling due in the course of the next two months, have hesitated to push sales, and have been careful in their choice of cu-tomers, which fact has also restricted the amount of sales. Not only are importers indifferent to jarge sales, but a remporters indifferent to large sales, but a reler in good credit will not give a full order for spring goods at this period." The Nashville American, of Thursday, says sales of stocks are quite a popular feature of the auction marts there, and are a great convenience to investors. It reports the day's sales of Nashville gas stocks at 124, 124 and 1251 12614, Nashville and Decatur railroad at 55, Equitable insurance at 7614, South Nashville

street railroad at 44% and 45, State insurance at 92. Had these sales occurred in Memphis the greater part of them would never have been reported. The privacy of transactions restricts their number; where saies and prices are published, and inquiries and offers are made known, attention is awakened, a spirit of business is aroused and business is done. Cannot our people awake from their humdrum way of doing these things? In our market there was some inquiry for gas stock, we found a small lot offering at par.
